

Sought After Morgan Accessory

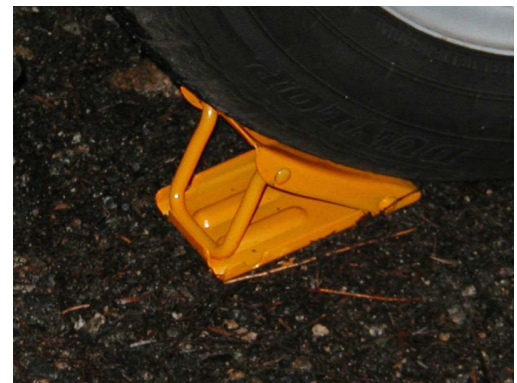

from Ken Miles

Many of you I know have a little trouble with the hand brake on the Morgan and the ease with which the little chrome knob springs upwards to allow the car to gently roll down a hill. Many of us resort to the unique use of a stone or a piece of wood, as shown in the picture.

(Ed note – These are often misplaced or not readily available near your parking spot. Some also use another original Morgan accessory as supplied on most models – the gear box’s 1st or 2nd gear, as long as your clutch and engine compression are good!)

Recently on the April Fools’ run with the Northern Pod I was intrigued by a unique piece of equipment that would make an excellent addition to your Morgan tool kit. Les Burkholder informed me that it was an antique of more or less correct age for his car and was standard equipment for a 1974 Toyota Corolla. It folds neatly and is easily concealed under the seat when not in use. Fellow Morgan drivers - keep your eyes open when you visit the junk yards for your recycled Morgan parts and maybe you could be the proud owner of a unique Japanese emergency brake.

FOR SALE

1988 Morgan 4/4; one owner, just 5,500 miles from new, Call Chris at (253) 383-3045 or e-mail morgandoc@aol.com for price and details.
